BADBUDDHA STRATEGY SETUP GUIDE

Here is a hands-on, step-by-step guide to enable your strategy:

[ ] **1. Clarify Your Combine Rules**

– Note profit targets, maximum drawdown, allowed instruments, trading hours.

– Plan your acceptable daily profit targets and stop losses.

– Drill into your mindset that you do NOT have to complete the combine in a day or two.

– *If you are a revenge, emotional or newer trader, it is highly recommended to install and use* *RiskMaster* *for risk management.*

[ ] **2. Import the Strategy**

- Open NinjaTrader 8. Go to Tools > Import > NinjaScript Add-On.

- Select the .zip file you received and complete the import process.

[ ] **3. Enable the Strategy on the Control Center**

- Open the Control Center > and navigate to the Strategies tab.

- Right-click in Strategies tab, select New Strategy.

- Find your strategy in the list and highlight it.

[ ] **4. Configure Settings**

- Fill out your desired parameters, profit targets, stop loss, and other risk controls. Some fields will be locked by design.

- Make sure 'Enabled' is checked at the bottom of the strategy settings window

- Click 'Ok' once you have finalized your settings.

[ ] **5. Try out the Strategy for 14-days**

- Run the strategy through backtesting within NinjaTrader.

- Run the strategy through historical market data in Playback mode.

- Run the strategy in a simulation account while you learn the strategy

[ ] **6. Generate Your License (after subscription)**

- Send your Machine ID, email address, and the strategy name to info@badbuddhacustoms.com.

- You can find your Machine ID under Help > About in NinjaTrader.

Risk Disclosure

Futures and forex trading contains substantial risk and is not for every investor. An investor could potentially lose all or more than the initial investment. Risk capital is money that can be lost without jeopardizing ones' financial security or life style. Only risk capital should be used for trading and only those with sufficient risk capital should consider trading. Past performance is not necessarily indicative of future results.
